

NEW Classic squeegee with finger grip

Difference between new Classic squeegee and phased out squeegee

No. 1 in food safety

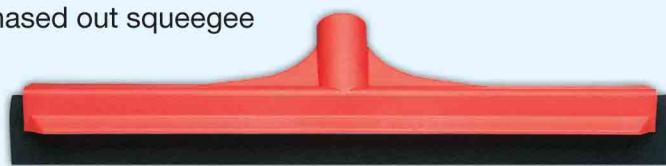

With the launch of the new Classic squeegee, a new replacement cassette with optimised functionality will also be introduced. This means that two versions of replacement cassettes will be available in the Vikan hygiene system® assortment:

1 Replacement cassettes for the phased out squeegees:
7080, 7082, 7084, 7086, 054025, 055025, 056025
and 057025.

2 Replacement cassettes with **finger grip** for the new Classic squeegees:
7751, 7752, 7753, 7754, 7755, 7761, 7762, 7763,
7764 and 7765.

Please see below to differentiate between the phased out squeegee and the new Classic squeegee as well as the replacement cassettes for both.

1 Phased out squeegee

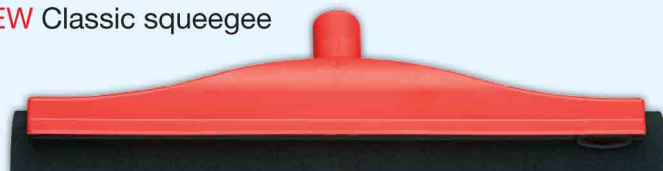

1 Replacement cassette for the phased out squeegee.

Replacement cassettes for the phased out squeegees are still available.

2 **NEW** Classic squeegee

2 Replacement cassette for the **NEW** Classic squeegee.
Please note the **finger grip**

Please note that the replacement cassettes for the phased out squeegee do not fit the new Classic squeegee and vice versa.
